How to get there?

By plane
Zurich airport, Street Car 10  
(Direction «Hauptbahnhof»)
Stop «ETH / Universitätsspital»

By train
Zurich main station, Street Car 6  
(Direction «Zoo») or 10 (Direction  
«Flughafen»)  
Stop «ETH / Universitätsspital»
Dear colleagues

It is a pleasure to welcome you to Zurich for our joint meeting of Swiss, Austrian and German Pediatric Pathologists from October 28th to 29th. Join us for a stimulating meeting that will cover topics from fetal and perinatal pathology to pediatric surgical pathology. The motto of our conference will focus on «Interdisciplinarity» which is important for our daily practice as pediatric pathologists. Not infrequently, a good collaboration between clinicians and pathologists is crucial for establishing the final diagnosis. Traditionally our meetings also offer a unique opportunity to introduce new data of scientific projects, present exciting case reports, or discuss difficult questions with all the experts. So we encourage you to send us your abstracts und to share your interesting work with our community! Another highlight will be our congress dinner which will be held in the Thai Lodge of our famous Kaeng Krachan Elephant Park.

We are looking forward to spending a great time together in Zurich

Peter Bode  Anne-Laure Rougemont  Annette Müller
Zurich  Geneva  Bonn

Program Highlights
I. Colmenero (Madrid): Diagnostic trapdoors in vascular anomalies
S. Vargas (Boston): Pediatric cystic lung disease: Contemporary concepts
E. Rushing (Zürich): Pediatric Brain Tumors – what a pediatric pathologist should know
J. Wisser (Zürich): Ultrasound of the Placenta – more than shades of grey
Th. Stallmach (Zürich): Diagnostic Workup of the Placenta – can it be useless?
U. Möhrlen (Zürich): Fetal MMC Repair – Cutting the Edge
A. Rauch (Zürich): Molecular Tools in Genetics – the beginning of a new era
N. Ochsenbein (Zürich): The value of interdisciplinary workup in fetal malformations and intrauterine fetal deaths

Abstracts
Maximum 200 words (Deadline 30th September 2017)
